

KnowHowHere

Supporting Emergency Deployment

LOCATION TECHNOLOGY

KnowHowHere harnesses the location sensing capabilities of modern smart devices to identify where your people are and what equipment they are near.

LOCATION INTELLIGENCE APP – PERSONNEL

Based on their location and proximity to equipment personnel are provided with the precise information they need for the task at hand.

The information they capture is fed directly to the incident team.

LOCATION INTELLIGENCE – MANAGEMENT

The KnowHowHere Business Intelligence Platform gives incident managers a real time view of the location and status of every deployed worker and asset, along with rapid tools to manage content delivery.

SYSTEMS INTEGRATION

The KnowHowHere API integrates with internal and external systems to ensure data is correct and current - in both directions.
